H. Government Contacts

Direct e-mail addresses are not available for most government officials, because of web security issues. To contact a government official, you must go to the web site, locate the official and select an option like "Contact Me." For example, if you wanted to contact your senator, you would go to www.senate.gov, click on Senators, choose your state (Wyoming, for example), and you will see both senators, with names, addresses, phone numbers and, at the bottom of his or her listing, a link to a web form for writing an e-mail.

Below are some useful government web sites.
